What is e-Nabız?

e-Nabız is an application that citizens and health professionals access to health data collected from health institutions via internet and mobile devices.

It is a personal health record system where you can manage all your health information, regardless of where your examinations and treatments are conducted, and where you can access your medical background from one place.

It is the world's largest and most comprehensive healthcare information infrastructure that you can access safely on the internet, enabling your health records to be assessed by physicians who are authorized by you with time and scope limitation, increasing the quality and speed of the diagnosis and treatment process and establishing a strong communication network between you and your physician.

How Can I login to e-Nabız?

When entering the system, authentication can be done in two ways.

Figure 1. e-Nabız Login Screen

1. From e-Government Portal

Using e-Government password, e-Signature or Mobile Signature over the e-Government Gate, you can login to the system with your TR ID number (Figure 1). When you click on e-Government login you will be directed to the e-Government.

Figure 2. e-Government Login Screen

2. If You Don't Have e-Government Access

If you do not have an e-Government password, you can log in to the system by registering your mobile phone number with your Family Physician who is registered with the Ministry of Health and using the disposable access code that is sent to you by text message.

The first page you are directed to create your profile information when you log in contains the Terms of Use.

To begin creating your profile, first you have to check the "I read the user agreement of e-Nabiz System" box located on the bottom of the User Agreement page.

CREATE NEW REGISTRATION

User Agreement of e-Nabiz System

If the e-Nabiz System user gives personal and health information; this information will not be disclosed unless the circumstances specified by the legislation have been established or the consent of the person has not been obtained and this information will be maintained with the highest security and privacy technologies and standards.. In case of the user gives permission, this information will be shared with the selected physicians and people authorized by the user..

Persons can access all or part of the e-Nabiz profile from other applications such as the 112 Emergency Help Button, Athlete Health Information System, which is the continuation of the e-Nabiz System.

Health data to be used in national or international health surveys or analyzes will be anonymized and used only by persons authorized by the Ministry of Health.

The Ministry of Health can not be held responsible for the inability to make connections due to technical problems (device, line, communication, etc.) that may be encountered by people and institutions during the use of the e-Nabiz System.

The steps that people should follow during the creation of the passwords that they will use to access the e-Nabiz System will be accepted as written instructions.

In case the user forgets, loses and misuses the password and login information (phone number etc.), The Ministry of Health may terminate the process, suspend/freeze the account and revoke the password without informing the owners in order to secure the information of the user.

The Ministry of Health can not be held responsible for any financial loss or delay that may arise here.

Individuals have responsibilities for the use of the e-Nabiz System for themselves and the people they are responsible for who are underage or under guardianship.

The medicine information of the users in the e-Nabiz System is provided by the contractor company which is in agreement with the Ministry of Health. All information in the system is purely informational. Patients need to use their medication in doses and forms that their physician recommends. In the case of medicine information, it is recommended that patient should consult their physician urgently in case of a situation that is noteworthy about their health status.

In cases where all personal health information is not available in the e-Nabiz System, people can apply for a request to see all personal health information in the e-Nabiz System by contacting the health facility they use for their services.

People have the right to ask for protection of personal health data. This right includes informing the individual about his/her personal data, accessing this data, requesting correction of the data and finding out if it has been used for its purposes..

I read the user agreement of e-Nabiz System.

e-Nabız Health History

Figure 8 is the first page of e-Nabız system you have shown when you enter the system. If you have health information, you can see the last two health care facility visits that have taken place on your page.

Figure 8. Health History Screen

On the same page, you can evaluate your last visits in terms of quality of service and you can add, remove or change comments on health care facilities. On this page you can see your hospital appointments and previous appointments that you have received via MHRS on the Appointment. In the Notifications section, you can review information about your account, including recent activities, recent access and health care facility visits.

Profile Information

You can view your profile information by clicking "Edit Profile" button at main page. From here you can upload/update photos, update passwords, change your country/city of residence, height, blood type, e-mail and mobile phone information. You can add more than one e-mail and mobile phone information.

Figure 9. Profile Information Screen / Edit Profile

You can access the "Sharing Settings" menu and choose from the options below for sharing your healthcare data:

"No physician can see my information (mandatory confirmation code by SMS or authenticator)"

"Family physicians can see your information"

"The physician who performed the examination can see my information"

"Every physician in the health facility where I had my examination can see my health information"

"All physician of the Ministry of Health can see my information"

Figure 10. Profile Information Screen / Sharing Settings

You can add all your mobile devices with internet connection to the e-Nabız system. After you click on the "Add" button, you will see a QR code on the page. You can click the Generate Password button and scan the QR code from your mobile application.

Figure 11. Profile Information Screen / Add Mobile Device

You can delete or freeze your e-Nabız account at any time for any length of time. You can only do this by entering your e-Nabız account via the e-Government gateway.

The health care facility information you have visited and details of the visits within the time you freeze your account will not be reflected in the e-Nabız system.

If you delete your account, your history of sensor data such as Blood Pressure, Steps, etc. will be erased and you will not be able to access this data again.

Figure 12. Profile Information Screen / Freeze My Account, Close My Account

Healthcare Facility Visits

You can see your visits to healthcare facility on the page in the detail of date, hospital tracking number, hospital name and clinic of health care facility visit. You can filter by Hospital and Clinic by clicking the Search button.

The screenshot shows the 'HOSPITAL VISITS' section of the e-nabız Personal Health System. The interface includes a search bar and a list of visits. Two visits are visible:

- Visit 1:** Date: 23.11.2018 09:13. Facility: T.C. SAĞLIK BAKANLIĞI SBÜ ANKARA DR. ABDURRAHMAN YURTASLAN ONKOLOJİ EĞİTİM VE ARAŞTIRMA HASTANESİ. Clinic: GÖZ HASTALIKLARI. Physician Name: [Redacted]. Hospital Tracking No.: 6E7R8VHS8HYCA3A3. Evaluation: ☆☆☆☆.
- Visit 2:** Date: 25.10.2018 14:38. Facility: T.C. SAĞLIK BAKANLIĞI BALGAT AĞIZ VE DİŞ SAĞLIĞI MERKEZİ. Clinic: AĞIZ, DİŞ VE ÇENE CERRAHİSİ. Physician Name: [Redacted]. Hospital Tracking No.: 6BH2M8MKGD00A2A2. Evaluation: ☆☆☆☆.

Figure 13. Hospital Visits Screen

With the "View Details" button you can access the selected health care facility visit and the procedure name, procedure time and health care facility visit information. Within this process, you can find the prescription, diagnosis, report, health care facility visit performed and details of the radiological image taken and contents. If you do not think this is the case for you, you can report the error by clicking on 'This Action Doesn't Belong To Me'.

The screenshot shows the 'Hospital Visits Detail' screen. The details for the selected visit are:

- Healthcare Facility: ÖZEL [Redacted] HASTANESİ
- Clinic: GÖZ HASTALIKLARI
- Process Time: 16.1.2020 16:22
- Appointment Time: [Redacted]
- Piece: 1
- Process Name: Göz Muayenesi
- Report Error: This Action Doesn't Belong To Me

Figure 14. Hospital Visits / Details Screen

By clicking on the "Share" button, you will be able to share your health information with a temporary period of time that you choose, with your e-mail address and your mobile phone number. The person you choose will be approved by you to click on the link to your e-mail address and enter your verification code on your mobile phone to view your health information.

| <input checked="" type="checkbox"/> | Tam Kan (Hemogram) | | | | | | 11/03/2015 | This Action Doesn't Belong To Me! |
| <input checked="" type="checkbox"/> | Sedimentasyon | | 10 | mm/saat | 0 - 20 | | 11/03/2015 | This Action Doesn't Belong To Me! |

Figure 24. Tests Screen

The results of your tests are shown by coloring this difference outside the reference value ranges. With the PDF button, you can save all your test results as a pdf on your computer, simply by choosing your desired test result or by selecting your tests from a specific date range. You can report that the wrong test results by clicking the 'This action doesn't belong to me' button.

You can see the result of your test on the graph by clicking on the graphical icon, you can see your results in tabulated form with the table button on the same page.

Figure 25. Tests / Test Results Graphic Display Screen

Images

All medical imaging and radiological reports you have acquired can be accessed on a date, hospital and image basis thanks to the Telemedicine and Teleradiology system integration. You can also access the details by clicking on the image you want and clicking on the report. You can share images and reports with physicians and family members who will be determined in the country and abroad via internet and mobile application. Physicians can add their own comments, as well as reports that other physicians have written on the current image. You do not need to repeat the same imaging request in different hospitals when you want to get an assessment from different physicians about your illness.

What Can You Do With e-Nabız?

Adding Data (Blood Pressure, Sugar, Pulse, Weight)

With the Web Interface

You can add values here by clicking on the tab 'Blood Pressure, Sugar, Pulse and Weight' with the 'Add' button in the main page via the web interface. The values you add can be updated with the Update button.

Figure 42. Add Value Screen

With the "Sensor Data" button you can choose whether you want to see all your blood pressure, sugar, heart rate and weight data from the web or your data values transferred from the mobile application.

Figure 43. Sensor Data Screen

With Wearable Mobile Devices

If you allow access to data from iHealth for IOS or Google Fit apps for android, the e-Nabız rate is automatically received from your mobile and displayed on your e-Nabız rate profile.

If you have a wearable technology device and the data on these devices are synchronized with your smartphone, your data on these devices are also transferred through the specified applications.

Organ Donation

Your organ donation notifications from this page will be forwarded to the organ donation units of the Ministry of Health. Requests arriving here are mailed to bagis@saglik.gov.tr. The authorities of the organ donation unit will communicate with you.

Share

Figure 48. Sharing / Share Health Records Screen

You can manage your time-sharing shares from the "Temporarily Sharing" tab. You can make shares from this page for hours such as 1 hour, 3 days or 2 months. You can edit or delete all your temporary shares without expiration.

From the "Shared with me" tab you can access those who share their health data with you. You can edit the contents of the health information you share with the person you are connecting with by clicking the "Edit" button, and you can restore the authority you have given with the "Delete" button.

You can also accept or reject incoming connection requests. You may be aware of the status updates of those you are connected to as far as you are informed.

Is My Health Information Safe?

How is My Personal Health Information Gathered?

The health information in e-Nabiz is generated by sending the data such as the diagnoses made, the medical images taken, the medicines prescribed, the allergies detected and similar information to the e -Pulse system in electronic environment by the healthcare institutions from the start of the e-Nabiz.

Who Can Access My Information?

The information can only be seen by the physicians you have authorized or by the people you have permanently or temporarily permitted by using the "[Share](#)" option in the system.

SHARING SETTINGS

No physician can see my information (mandatory confirmation code by SMS or authenticator) ∨

If you mark this box, your family physician and other doctors will not be able to access your health records without your consent unless you are also in a sharing request.
You can turn this option off at any time to confirm your access.

Family physicians can see your information (Suggested) ∧

The physician who performed the examination can see my information. (Suggested) ∧

Every physician in the health facility where i had my examination can see my health information ∧

All physician of the Ministry of Health can see my information ∧
